GERMAN.—Ollendorff's System; Adler's Reader; Schiller's Thirty Years' War; Goethe's Faust.

Elocutionary and Rhetorical Exercises throughout the Course.

RELIGIOUS INSTRUCTION.

All the students are required to attend the worship of God, daily, in the College Chapel, and to recite a Bible lesson once a week. All are likewise required to attend public worship, and Bible class, in some church, on the Sabbath. Those who take the Classical Course will read exegetically the greater part of the New Testament in Greek, and select portions of the Old Testament in Hebrew. In addition to studying the usual text books on Natural Theology, Evidences of Christianity, and Moral Philosophy, they will take a brief course in the principles of the Gospel. This course of Religious Instruction will be especially valuable to those whose professional studies will not lead them to a careful examination of the facts and principles of the Word of God. Students' Prayer Meetings have been organized; they are well attended. The Faculty regard it as an important part of their work to labor for the moral and spiritual welfare of the Students.

LIBRARY.

The Library contains about one thousand volumes, including five hundred dollars worth of new books, selected expressly for the College. The most important Reviews and Monthlies, published in the United States, are received regularly. It is accessible to all the Students.

APPARATUS.

An extensive Philosophical and Chemical Apparatus has been procured and is now in successful use. It affords the means for a satisfactory illustration of the most important doctrines in the various departments of Astronomy, Natural Philosophy, and Chemistry.

LITERARY SOCIETIES.

There are three Literary Societies in the College—the *Philadelphian*, *Eecritean*, and *Amateurs de Belles Lettres*—on a good footing, which afford to their members respectively the opportunity of improvement in the branches of learning, for the promotion of which they are established.

GOVERNMENT.

It is the aim of the Faculty to secure good order and diligence in study, by the force of moral and religious principles, rather than by the direct exercise of authority. Those who persist in neglecting their studies, or in pursuing disorderly courses, or in exerting an evil influence, will not be permitted to remain in connection with the College.

EXPENSES.

Tuition is from $15 to $25 per annum, payable in advance, at the commencement of each Session. There is also a charge of 75 cents per Session for incidental expenses. This does not include tuition for the French and German Languages and Music. Boarding in private families, including lodging and fuel, may be had for $2,50 per week. Some Students board themselves at a cost of less than *one dollar* per week. Male and female pupils are admitted on the same terms.

EXAMINATIONS.

In addition to the usual public examinations there is a private examination, by the Faculty, of every class, on each book or subject, as soon as completed. This examination is thorough and complete. No Student is permitted to advance to higher subjects, until the lower are mastered.

SESSIONS AND VACATIONS.

The present College year will close on Commencement Day —Thursday, July 7th. The First Session of the Fourth College Year will open on Tuesday, September 6th, at 2 o'clock, P. M., and close on Friday, December 16th. The Second Session will open on the First Monday of January, at 2 o'clock, P. M., and close on Friday, March 24th. The Third Session will open on Monday, April 3d, and close on the First Thursday of July. The Summer Vacation will continue about two months, the Winter, about two weeks, and the Spring, about one week.

ADDITIONAL INFORMATION.

Students, to enjoy the greatest advantages, should commence at the opening of the First Session, and continue throughout the year. Students can count on obtaining an opportunity of studying particular subjects, only during the Sessions to which they are assigned.

College bills are required to be paid promptly in advance, at the opening of each Session.

Students applying for admission on hired Scholarships, must present a certificate from the owner thereof, authorizing them to use the same. Such certificate should specify particularly the time for which the Scholarship has been transferred.

No more perpetual Scholarships will be sold.

For the endowment of the College, it is desired to carry out the following schemes:

1. The exchange of all perpetual Scholarships for Scholarships securing twenty or five years' tuition. For twenty year Scholarships, notes for $100, running a limited time, and bearing interest at ten per cent. per annum, in advance, are accepted; and for five year Scholarships, notes of like tenor

for $50. If the perpetual Scholarships are all thus changed, the annual income will be very much increased.

2. A few more of these twenty and five year Scholarships are offered on the terms above mentioned. It is intended to issue only a limited number. Those who desire to secure them should apply quickly.

3. It is earnestly desired to secure one hundred men who will give each $100 for the endowment fund, on the condition that the whole number is secured. All who subscribe on this plan will be permitted to retain the principal, by giving their notes therefor, payable in a limited time, bearing interest at ten per cent. per annum, in advance. On the payment of the interest, College Scrip will be issued, payable to the order of the receiver, to the amount of eight per cent. on the principal, which will be received at any time in payment of tuition at regular rates. When the principal is paid in, then scrip to the amount of ten per cent. on the principal will be issued annually. Scrip, however, will not be issued on the same sum for more than twenty years.

4. It is also earnestly desired to obtain twenty men who will each give five hundred dollars, on condition that the whole number is secured. Those who subscribe on this plan, will be permitted to retain the principal, by giving their notes therefor, payable in a limited time, bearing interest at ten per cent. per annum, in advance. Scrip of the tenor above described, will be issued to the full amount of the interest, on the payment thereof.

5. Some time will necessarily elapse before these schemes can be fully carried out. To meet the current expenses in the mean time, the College is largely dependent on the five year subscription. It is intended to circulate this in all the congregations in the State, that have not yet been visited. Whatever of the proceeds of this fund may not be needed to meet current expenses, will be put into the endowment fund. It is very important that the sums thus subscribed be promptly paid.

6. While the preceding schemes are those on which the main reliance is placed, yet donations are solicited from all persons who may be disposed to give any sum, however small, to help on the cause.

Let these schemes be carried out, and Monmouth College will be established on a secure foundation. She will be prepared to rank at once with the best Institutions in the West.

The College building contains a chapel large enough to seat three hundred persons, and eight other rooms, adapted to various College purposes. The accommodations are already too limited. With the view of securing a new college edifice, a donation of ten acres, of a quarter section of land, lying immediately east of the city, for a site, and of one-sixth of the remaining one hundred and fifty for the endowment fund, has been made by Messrs. A. Y. GRAHAM and D. GRAHAM, on the condition that a building of a particular description be erected on the site above mentioned, within a limited time. This donation has been accepted. The building and grounds at present occupied are to be retained for college purposes.

MONMOUTH is a young and rapidly growing city of about three thousand inhabitants, situated on a fine rolling prairie, on the line of the Chicago, Burlington and Quincy Railroad. It is easy of access from every direction. It contains flourishing churches of various Evangelical denominations.

Theological Seminary

OF THE UNITED PRESBYTERIAN CHURCH,

MONMOUTH, ILLINOIS.

—:-o-:—

The Second Session of this Institution will commence on the first Tuesday of September, 1859, and close on the last Wednesday of March, 1860.

The course of instruction occupies three Sessions.

The great object kept in view is to make the Student acquainted with the Bible. Students read, critically, and are required to interpret, considerable portions of the Hebrew and Greek Scriptures. They deliver discourses publicly twice each Session, and have the advantage of a Theological Society. It is expected that the services of a highly accomplished teacher of Elocution will be secured for the approaching Session. Members of all Evangelical Churches enjoy the advantages of the Seminary, without charge, under the same regulations as members of the U. P. Church. The Library contains nearly two thousand volumes.

Satisfactory arrangements will be made for boarding Students at reasonable rates.
